

THE BARBECOOK® BANIKA: HEALTHY GASTRONOMY

With its electric spit and grill basket the barbecue® Banika is something of an **odd one out** in barbecueland.

The key feature of this wood and/or charcoal barbecue is ease of use: the **automatic spit** does all the turning for you, and requires no attention during cooking.

The Banika also adds a **gastronomic dimension** to barbecuing. For food that is evenly and perfectly cooked on all sides is delightfully tender and has just that little extra. Moreover, the spit and the grill basket can handle all sizes, from mini to maxi.

Barbecuing with the Banika is also extra **healthy**: the charcoal fire is installed in a vertical position to exclude any contact between the fire and the food.

The Banika is for those who enjoy authentically tasting dishes and who also want to spend as much time as possible with their guests. For barbecuing has **never been more relaxing** than with the Banika!

You can find the full range of the Belgian barbecue producer barbecue® at <http://www.barbecue.com>. Here we would just like to show you a handful of products from our extensive range.
