

BARBECOOK® REVAMPS CHARCOAL BARBECUES

New trendy colours and practical improvements for 2011

The barbecook® charcoal barbecues are designed to combine comfort and quality. For the 2011 barbecue season, barbecook® has added a number of improvements for even greater ease of use. And for those who fancy something different, barbecook® is launching two new trendy versions. The Black and White Limited Edition are bound to colour the summer of 2011.

DETAILS MAKE THE DIFFERENCE

The barbecook® charcoal barbecues are synonymous with ease of use from start to finish. The improved clips make mounting of the barbecues even easier than before. The stylish handle is even easier to use, and the new logo plate provides enhanced visibility. The wind shield is now fully enamelled, and the QuickStop® system means no more endless scrubbing.

A PERFECT FIRE WITHIN HAND'S REACH

The barbecook® charcoal barbecues ensure perfect grilling results, quite simply because they produce the best fire. A fire that you light with a few sheets of paper and a natural air flow. A fire that gets very hot, thereby ensuring healthy combustion. A fire that can easily be kept under control and whose harmful gases escape quickly. Such a perfect fire does not require any kind of lid. And the pleasure of a visible fire is thrown in as a bonus.

NOW ALSO IN BLACK OR WHITE

Alongside the familiar red-black enamel or stainless steel versions, the barbecook® charcoal barbecue will from 2011 also be available in two completely black enamelled versions (ø 43 cm and ø 50 cm) and one completely white enamelled version (ø 50 cm).

Be the first to discover the Black and White Limited Edition at the **Spoga/Gafa fair in Cologne** (5 to 7 September). We look forward to meeting you in hall 5.1, stand A 001-002.
